Introduction To Flaked Stone Tool Technologies Registration Form

This Archaeological Investigations Northwest, Inc. (AINW) workshop is designed for professional archaeologists, students of archaeology, and non-professionals interested in lithic technological analysis. The workshop will focus on how to apply flintknapping experimentation results to interpretation of the archaeological record. This workshop is certified by the Register of Professional Archaeologists (RPA) for Continuing Professional Education credits.

The workshop will be held Monday through Friday, September 15 - 19, 2014, from 8:00 a.m. to 5:00 p.m. each day at the AINW facility located at 3510 NE 122nd Ave., Portland, Oregon, 97230.

The \$995.00 fee for the class includes use of hammerstones, pressure flakers, and lithic raw materials. A cold lunch will be provided each class day. The fee does not include other meals or lodging.
